

附表二十四之三：乾癬面積暨嚴重度指數【PsoriasisAreaSeverityIndex(PASI)】

乾癬面積 (Area)：合併總面積佔體表%

| 涵蓋程度 | 0 % | <10 % | 10-29 % | 30-49 % | 50-69 % | 70-89 % | 90-100 % |
|------|-----|-------|---------|---------|---------|---------|----------|
| 分數   |     |       |         |         |         |         |          |
| 皮膚部位 | 0   | 1     | 2       | 3       | 4       | 5       | 6        |

部位：頭部(h)、軀幹(t)、上肢(u)、下肢(l)

乾癬嚴重度 (Severity)：

| 嚴重度      | None | Some                | Moderate                                                       | Severe                                                             | Maximum                                                              |
|----------|------|---------------------|----------------------------------------------------------------|--------------------------------------------------------------------|----------------------------------------------------------------------|
| 分數       | 0    | 1                   | 2                                                              | 3                                                                  | 4                                                                    |
| 發紅 (E)   | None | Slightpink          | Pink                                                           | Red                                                                | Darkred/<br>purpura                                                  |
